

Scalability & Future Plan

Date	3 July 2026
Team ID	XXXXXX
Project Name	Smart Lender
Maximum Marks	1 mark

Scalability & Future Plan:

Smart Lender is designed to scale with increasing users and loan applications by leveraging cloud deployment and periodic model updates. Future enhancements include integrating credit score APIs, fraud detection, user authentication, mobile support, and advanced analytics to improve accuracy, security, and user experience.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Limited training dataset	May reduce prediction accuracy for unseen data	High
2	supports only loan approval prediction	Does not provide detailed risk analysis or recommendations	Medium
3	Basic authentication and security	Needs stronger security for production deployment	High

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	supports limited concurrent users	Deploy on cloud with load balancing and auto scaling
2	Data Storage	Local dataset and model files	use cloud databases and cloud object storage
3	Performance	single server prediction	Optimize model and enable parallel processing
4	Security	Basic flask application	Implement authentication Https, and data encryption

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 2	Add user authentication and Admin dashboard		Improve security and management
Phase 3	Integrate credit score and document verification		Increase prediction accuracy
Phase 4	Develop Android mobile application		Improve accessibility and user experience
